

AISL's full plant-nutrition range — bio-stimulants, chelated micronutrients, calcium/boron correctors and soil biology products for fruit, vegetable, flowering and cereal crops across Kenya & Mauritius.

PRODUCT	KEY COMPOSITION	PACKAGE	RATE OF APPLICATION
Humi-Cal-FeK	Humic acid, fulvic acid, chelated calcium, potassium & iron	5 kg	3 kg/ha (drench/foliar)
Ultra Power Gro	Humic/fulvic acid, seaweed extract, amino acids, metal co-factors	1 L & 20 L	2 L/ha foliar
BorCaZink	Boron, zinc, chelated calcium & potassium	20 L can	2.5 L/ha drench
CaMBochel	Chelated calcium, magnesium & boron (EDTA form)	25 kg	1.0 kg/ha (1500 L) foliar
Bio Miracle	Organic osmolyte molecule & effective nutrients	20 L can	2 L/ha (1000 L) foliar
Folergy	Rich seaweed extract for rooting	1 L & 20 L	1.5–2 L/ha (1000 L) foliar
Micro Chel	Chelated micronutrients with EDTA	25 kg bag	16–18 g/m ³ irrigation water
PotPhor (PhosK Phite)	Potassium salt of phosphorous acid (80%)	20 L can	3 L/ha drench & foliar
Holticultural Soap	Potassium salt of long-chain (C28) fatty acid	2.5 L can	1.5–2 L/ha
Organo-Cal	Chelated calcium, magnesium & boron with bio-stimulant	25 kg bag	2.5–3 kg/ha soil application
Myco-Phos	Endo-mycorrhiza (3 species)	½ kg pack	200 mL per seedling
Regalunia	Organic compounds, antioxidants, vitamins & phyto-hormones	1 L bottle	1.5 mL/L
Infuze	Lemon oil-based D-Limonene	2.5 L can	As directed
Micro Gel	Chelated micronutrients (organic acid form)	20 L can	As directed
Folery Ev	Bio extract, three genus essential oils	1 L bottle	3–5 mL/L
Exel Leaf	Complete macro & micronutrients	25 kg bag	As directed
Bio Gold Mine	Consortium of live microbes (metabolites)	5 L pack	As directed
Bio Cal	Readily available calcium	2.5 L can	As directed
Bio Shield	Chlorophyll-forming organic molecule with nutrients	1 L bottle	As directed

Full technical details (mode of action, benefits, target crops) are available in our Technical Brochures and Application Guides downloads.
